Introduction

Welcome to South Holland District Council's Corporate Plan 2019 - 2023

Our Strategic vision is:

South Holland: 'A Place of Prosperity, Wellbeing and Opportunity for All'

- ▶ South Holland District Council's Corporate Plan 2019 - 2023 is the Council's vision for the district and its priorities for this period.
- ▶ Our Corporate Plan sets out how we will work with our partners and the community to ensure that South Holland continues to be a place that people choose to live, work, visit and enjoy.
- ▶ It is informed by what we know about the area and identifies how we will achieve our long-term vision, what our key priorities are and how we will deliver our services.

Our Priorities

Our Ambition & Narrative

South Holland: A Place of Prosperity, Wellbeing and Opportunity for All

- ▶ We are a council firmly rooted in our rural community. Elected members work closely alongside officers, to deliver cost-effective core services that are valued by the community, such as weekly waste collections and access to quality housing for all, in a district that is safe and where both people and businesses can reach their full potential.
- ▶ One of our main focuses is around providing good-quality housing that everyone in our community can call their home. We do this by working with private developers to unlock land for a mix of housing or through our own housing stock, giving residents access to well-maintained, affordable properties that meet their needs. We will deliver homes in a managed way through our Local Plan which, when adopted, will be our blueprint up to 2036.
- ▶ We deliver cost-effective core services by reducing costs or raising money by being more commercially-minded in how we work. We also work closely with other organisations to deliver services, bring them together, or apply for national and regional funding to help with local projects - for example, helping secure £12m of funding to improve transport infrastructure to support housing and employment growth.
- ▶ We have a reputation for managing our money well - something we are really proud of - it means we can reinvest in our services: for example, our extended garden waste collection scheme and improved ways to pay bills or contact us online. Being good with our money also means we can help keep Council Tax as low as possible.
- ▶ To deliver services to our communities we have staff who are motivated and ambitious. As many of them live in the district, they are proud and passionate about the positive impact their work has. An example of this is how our staff support and safeguard our most vulnerable residents. By working with our partners, we can focus on those most vulnerable and refer the most extreme cases to the right agencies for extra help and support.
- ▶ One of our aims is to be more of a business partner to businesses, either those based in the district or those looking to relocate into the district. Whether it is guiding them through the planning process or help getting access to grants, we look at ways of connecting businesses together to create a vibrant district economy that benefits everyone. We have a key role in helping to enhance and modernise skills across the district to ensure that our residents benefit from improved wages. As an employer, we are committed to skills improvement and work experience by offering apprenticeships, a graduate scheme, and work experience placements for school and university students.
- ▶ Our aspirations for the future are clear: we want to meet the continuing needs of our residents, young and old, by providing good-quality homes in a district which attracts businesses who, with our help, can provide long-term employment opportunities for all - now and in the future. We also aspire to generate more money by taking a more commercial approach to the way we work - meaning that we will be less reliant on Government funding in the future. We do this so that we can continue to deliver the discretionary services that support our community to improve their health and wellbeing. Many other councils are cutting these as they can no longer afford them.

Our District

Our District

- ▶ Surrounded by wide open countryside, the district of South Holland encompasses the flat fenlands of South East Lincolnshire, characterised by big skies and fertile land that was reclaimed from the sea over many centuries.
- ▶ Once renowned for its tulip industry, it is now recognised nationally as the hub of the UK agriculture, food manufacturing and logistics sectors. South Holland is a welcoming place of thriving local communities offering great schools, a quality of life well above the national average and broad ranges of high quality family and starter homes. It is a district with a unique history and an exciting future.
- ▶ Our traditional market towns and villages retain the historic character that is unique to Lincolnshire. Our proud heritage, stretching back to Roman times, is displayed for all to see, from historic windmills to our modern day flower industry, with the fens and drains in between. The main towns and population centres of Spalding, Crowland, Holbeach, Donington, Long Sutton and Sutton Bridge all feature strong community identities and activities, matched by thriving business and industry.
- ▶ The population is expanding healthily there are now 92,500 residents in the area with estimates that the population will reach 105,400 by 2041.
- ▶ The continued success of major industries such as agriculture, horticulture, food processing, packaging and distribution, together with related commercial support services, is testament to the skills base, education and support for entrepreneurs. This success is reflected in an increasing demand for high quality housing, commercial developments and business support facilities. South Holland District Council is at the forefront of innovative schemes to develop high quality affordable homes for purchase, shared ownership and rent.
