Report Section Design and Features

Headers

At the top of each page is a band containing key information about your report

User Controls (Excel File)

Above the **Headers** is a band containing **User Controls**, these allow you to adjust various features of your report to suit your needs. When using these controls the report recalculates and represents your STEAM report outputs automatically. You may notice some delay between changing a setting and seeing the result, or being able to adjust a further setting, this is entirely normal.

Drop down fields allow you to change the **Years** shown in the tables and charts and in some sections of the report allow you to focus on specific **Visitor Types**. Where there is a financial component to the section you are viewing, you will be able to **Index** the historic financial data, by applying an inflationary factor based on the most recent report year shown in that report section. Where there is a **trend** or comparative element to the section and percentage changes are shown, you have the option to apply **highlighting** to those values that are above a certain percentage threshold (+/-3% for example). In the Comparative Headlines section, the **Focus Year** can be any year from the trend period, the **Comparison Year** can only be set as a year which is earlier than the focus year.

Units

Each section of the report automatically adjusts number formatting to present data in the most easily understandable way. Different visitor types can generate impacts at very different scales and as a result you may see figures for one group of visitors in thousands and another in millions. The units we use are:

- FTEs** = Full Time Equivalent jobs supported
- £000s / 000s** = thousands of pounds or thousands of tourist days / tourist numbers
- £m / m** = millions of pounds or millions of tourist days / tourist numbers
- £bn / bn** = billions of pounds or billions of tourist days / tourist numbers

Visitor Numbers / Visitor Days / Average Length of Stay

The term **Visitor Numbers** relates to the estimated number of individual **visits** to the area. Each type of visitor tends to stay, on average, a different length of time (Average Length of Stay). The term **Visitor Days** relates to the estimated number of **days** spent within the area by the different visitor types. If you divide the visitor days by visitor numbers, you have the **Average Length of Stay** for that Visitor Type

KEY PERFORMANCE INDICATORS BY TYPE OF VISITOR - COMPARING 2023 & 2022 - IN HISTORIC PRICES

| KEY | Staying in Paid Accommodation | | | | | | | | | All Staying Visitors | Day Visitors | | | All Visitor Types | | | | | |
